RECYCLING COLLECTION INFORMATION

Waste Management is now accepting additional items for recycling.

Paper Products: Newsprint, this includes the inserts that come within the newspaper, magazines, envelopes, telephone books, junk mail, cereal boxes (not the internal liners), computer paper, small cardboard boxes that have been flattened or other paper products that may be torn by hand. **Juice and Dairy containers** are permitted, provided they are thoroughly rinsed. Paper products that are soiled with food residue are not permitted or have a plastic coating or metal attachments.

Plastic containers: All post consumer plastic containers that have the international recycling logo imprinted on the bottom of the container with #1, #2,#3, #4, #5 and #7 inside the recycling logo may be recycled. Please flatten your milk jugs to save space in the recycling bin. **No styrofoam, plastic wrap, plastic bags or films please.**

Aluminum and Metal cans: Aluminum Foil and Pie Tins are acceptable. Please flatten the larger can(s) to save space in the bin.

Glass food and beverage containers (jars and beverage bottles): Clear, brown and green.

Why rinse the containers? Ants, wasp and bees are attracted to the leftover food residue. Materials infested with these insects will not be collected as they pose a health and safety risk to our crews, plus they may create an odor while stored before collection.

Collection Schedule: Current collection schedule is unchanged. Excess recyclable materials may be contained within an additional container of less than 40-gallon capacity provided by you, but clearly marked as **RECYCLE ONLY**.

Please contact the Waste Management Customer Service Department; Monday – Friday, 8:00 am to 5:00 pm. and Saturdays 8:00 am until noon at 713-686-6666 or email at customerservice-satexas@wm.com with any questions regarding your recycling collection services.

You can make a difference by Recycling one item at a time.

1 Aluminum Can - **SAVES** enough energy to power a TV for 3 hours!

1 month of your Sunday Newspapers will **SAVE** 4 trees per year!

1 Plastic Bottle – can **CONSERVE** enough energy to light a 60-watt light bulb for up to 6 hours!

1 Glass Bottle – **SAVES** enough energy to light a 100-watt light bulb for 4 hours!

As North America's largest recycler, Waste Management managed more than 8.5 million tons of material that was recycled or reused in 2009.
